IRVING, Texas--(BUSINESS WIRE)--December 3, 2020--The Michaels Companies, Inc. (NASDAQ: MIK) today announced financial results for the third quarter fiscal 2020 ended October 31, 2020.

Ashley Buchanan, Michaels Chief Executive Officer commented, “Michaels delivered strong third quarter results highlighted by comparable store sales growth of 16.3%, which was driven by robust consumer demand, improved retail execution and continued progress against our strategic initiatives. Our expanded omni channel capabilities, Maker-centric branding, and increasingly personalized marketing resonated well with customers. We also benefited from progress we made on our ongoing efforts around strategic inventory management, streamlined store operations and a disciplined approach to pricing and promotions. Importantly, we strengthened our balance sheet by paying down \$150 million in debt and increased our financial flexibility by refinancing and significantly extending the maturity of our term loan.”

Mr. Buchanan added, “Our Maker strategy underpins the work we are doing to innovate and elevate the customer experience as we transform Michaels into a leading omnichannel specialty retailer. We have strengthened our core business and put Michaels in a much stronger position today - operationally, financially, and strategically - than at the start of this year and I would like to extend my gratitude to every single Michaels team member whose hard work has enabled these results. While the operating environment continues to evolve, we look forward to building on our progress as we continue to drive toward sustainable growth over the long term.”

Key Highlights

- Michaels delivered a 16.3% increase in third quarter comparable store sales, driven by strong demand in both stores and e-commerce.
- Third quarter e-commerce growth of more than 128% year over year was driven by enhanced and expanded omnichannel capabilities including curbside pick-up, same day delivery, ship from store, buy online, pick-up in store, or BOPIS, in-app purchases and more. Year-to-date e-commerce growth totaled 249%.
- Improved capital structure with successful refinancing of term loan, extending maturity dates to 2027 and \$150 million in debt pay down.

Third Quarter Fiscal 2020 (13 weeks ended October 31, 2020):

- The 15.1% increase in sales for the third quarter of fiscal 2020 compared to the same period in the prior year was due to a 16.3% increase in comparable store sales and sales related to additional stores opened (net of closures) since the end of the third quarter of fiscal 2019, partially offset by a sales decline due to the closure of our wholesale business.
- Operating income was \$199.0 million, an increase of 162% when compared to operating income of \$76.0 million in the third quarter of fiscal 2019. Adjusted operating income for the third quarter of fiscal 2020 increased 72% to \$201.6 million from \$117.4 million in the third quarter of fiscal 2019. A full reconciliation of adjusted operating income is available within the tables of this press release.

Balance sheet and liquidity highlights:

- The Company generated \$380 million in free cash flow (defined as cash flow from operating activities less capital expenditures) during the third quarter and \$633 million on a year-to-date basis.
- The Company ended the third quarter of fiscal 2020 with a cash balance of \$852 million and full access to an undrawn revolving credit facility.

Special Bonus for Team Members:

The company announced that during the fourth quarter it will pay approximately \$10 million in one-time holiday bonuses to both full-time and part-time team members as a thank you for their extraordinary work this year during unprecedented times.

Mr. Buchanan commented, "We want to show our gratitude to all of our team members who have continued to deliver incredible customer service and are a critical element to our ongoing success this year during such trying times for our communities."

Outlook:

Given the continued uncertainty due to the COVID-19 pandemic, including a dynamic and uncertain outlook for consumer spending patterns and associated government policies, the Company is not providing any formal guidance at this time.

The Company's presentation of non-GAAP financial measures should not be construed to imply that its future results will be unaffected by any such adjustments. Other companies in the Company's industry may calculate these items differently than it does.
